I am a dedicated hard-working person with experience and knowledge of mern stack technologies, seeking a web developer role in your company. I am willing to utilize my expertise of experience as a mern stack developer with excellent creative skills and Genius mind zone for your company to achieve its goals.

WORK EXPERIENCE

MERN Stack Developer
Bloctech Solutions

01/2023 - 07/2023   *Faisalabad Pakistan*

Achievements/Tasks

- I was responsible for frontend development, including web page design and implementation of frontend functionalities, for the company's official website. My main goal was to create visually appealing and user-friendly interfaces that provided visitors with a seamless browsing experience.
- Worked on a NFT market place, that handles API, theme and graphs.Worked on a NFT market place, that handles API, theme and graphs.
- Worked on NFTALY where I can handle server-side API, mongo DB connection with node server, JWT authentications, and improved the User interface.Worked on NFTALY where I can handle server-side API, mongo DB connection with node server, JWT authentications, and improved the User interface.
- I worked on a Fashion & discover-and-collection-nfts website where my responsibilities included handling the frontend development and designing the user interface. With a focus on user experience, I designed an intuitive and a visually appealing interface that enhances the overall usability of the website.
- During my tenure at BlocTech Solutions, I utilized Figma to design and create multiple websites. By implementing Material UI, I ensured that the front end of these websites had a contemporary and visually appealing appearance. By translating design concepts into functional web pages, I significantly improved the overall user experience of the projects.
